A helicopter crashes onto a beach at Deception Bay, north of Brisbane, hours after another chopper flips onto its side south of the city.

The crash occurred just after 1:00pm near Captain Cook Parade.

Ambulance officers were called to the scene and treated the pilot.

No one else was on board.

The Queensland Fire and Rescue Service said the helicopter was leaking fuel and the area had been closed to the public.

This morning, in an unrelated helicopter accident at the Archerfield Airport, an aircraft flipped onto its side, but there were no reports of injuries.

QFRS said it was not yet known whether the helicopter crashed while taking off or landing.

One fire crew went to the scene to deal with a small fuel leak.

Queensland Police said it was unclear how many people were onboard.

Work place health and safety officers are investigating
