Two people have walked away from a helicopter crash at Jandakot Airport this afternoon.

The pair, believed to be a student pilot and instructor, sustained minor injuries after the Robinson 22 helicopter crashed just before 3pm. They were seen walking after the crash before being assessed by paramedics.

Witnesses told Seven News the helicopter's rotor blades hit the ground first before the fuselage rolled onto its side.

The crash is believed to have happened in a helicopter training area but what caused the accident remains unclear.
