

Subject: AF News Flash Issue 14  
Date: Sat, 29 Jul 2000 09:14:49 +1000

Hello and Welcome to another Issue of the AirCentre News Flash from the Archerfield News Desk where aviation history is recorded for all those persons who fly-in, pilot or enjoy the ownership of light aircraft.

This Issue of the AirCentre News Flash is released to advise readers that Week One of the August News page is about to be published and to welcome new readers into the system.

Whilst the intention of this news flash is meant to be for 'late breaking news' from Archerfield airport it is also a handy medium for advising readers of 'other' aviation news items and in some cases, the 'behind the scenes' information.

You are no doubt aware of the unfortunate air accident that occurred overseas last week.

It is not the intention of this News Desk to publicise aircraft accidents, there are already a number of web pages carrying out this 'service', but the significance of the past week in aviation history should not go unrecorded within these pages.

It is not general aviation, nor is it 'private flying', but for this news service not to make mention about an aircraft that changed the way people like to fly and is part of the 'significant events' of aviation history, would have to be considered insensitive.

For the want of a better explanation, I would like to think the word 'tribute' is at least one of the words in your mind when you read the first part of the AirCentre News, Week One, August 2000.

Don Martinez
