

Subject: AF News Flash Issue 15
Date: Thu, 31 Aug 2000 19:57:47 +1000

Hello and Welcome to another Issue of the AirCentre News Flash from the Archerfield News Desk where aviation history is recorded for all those persons who fly in, pilot or enjoy the ownership of light aircraft.

This Issue of the AirCentre News Flash is released to advise readers that the Archerfield Master Plan on the airfield's future has been approved by the OZ Government.

Basic details are recorded in the Week One Issue of September News released with this News Flash.

Once again the News Desk would like to welcome new readers into the 'fold' and would also like to take this opportunity to thank all of you (you are now one of more than 80 persons receiving this message) for your interest and support over the past few years.

Now for some non-news:-

If you happen to know of a digital camera 'going for song' as the saying goes, please contact the News Desk, a better than 'video camera' image, as used previously, is required by the News Desk to improve the quality of images presented on these pages.

And a reminder that the cable modem will not be available this Friday September 1 as there will a power outage at home base for the day (replacement of an Energex power pole).

Don Martinez
