

Subject: AF News Flash Issue 2
Date: Mon, 04 Oct 1999 19:45:48 +1000

Hello and Welcome to another issue of the AirCentre New Flash from the Archerfield News Desk where aviation history is recorded for all those persons who fly-in, pilot or enjoy the ownership of light aircraft.

As Light Aircraft accidents always appear to get what can only be termed "bad publicity" from the local News Media when an accident occurs, the AirCentre News Desk felt that a special issue of the AF News Flash be released to advise the recording of images from a recent heavy aircraft accident overseas that up until now, appeared to be shrouded in mystery.

While the aircraft concerned was not "Archerfield based" it was the fact that very few images were released by the news media of this accident that prompted this report.

Check out week two of the AirCentre News for a visual comparison of "Heavy verses Light" aircraft "mishaps"!
