Hello and Welcome to another Issue of the AirCentre News Flash where aviation history is recorded for all those persons who fly in, pilot or enjoy the ownership of light aircraft.

This Issue is to advise you about the release of Week Five of the AirCentre News for January 2001.

A lot has happened over the past few days with Light Aircraft, here at Archerfield and elsewhere, that necessitates the extra news week for this month.

Brisbane locals will no doubt have heard of the accident involving the Pitts Special from Archerfield from TV and News Media reports.

Many of our 'non-local' readers may also be interested as the News Desk is aware that a number of you learnt to fly here at AF and it is the intention of this News Desk to record as much as possible, be it good or the not-so-good news, about the 'happenings' from Archerfield.

Also in Week Five are details on the CASA registration ongoing saga, Boyd Munro with his apparent king sized "piggy bank" and details on what has made the Australia day week-end an absolute air disaster for the previously excellent safety record of light aircraft here in OZ.
