

Subject: AC News Flash Issue 28
Date: Thu, 07 Mar 2002 18:01:13 +1000

A warm Welcome from the AirCentre News Desk

This is the first News Flash to be Issued for 2002 and coincides with the release of Week Two of the March AirCentre News. To view go to :-
<http://www.aircentre.com.au/news>
and click on the Week Two button (top left) to open.

Current items of interest from around Archerfield include the on-going drama with hangars and leases and an impounded Piper PA-28R Cherokee aircraft.

Outside of AF seems to be similar for a number of OZ aviation organizations including Ansett Airlines folding up for good after 67 years of continuous operation.

You can read the highlights of the local news media reports by accessing the AirCentre News page on the WWW.

There you will find selected aviation history recorded for all persons who are interested in or enjoy the ownership and/or flying of light aircraft and other aviation associated articles.

Just in case you missed something last few weeks here are some briefs :-

Week One - OZ F/A-18 authorized to shoot down un-armed aircraft; The QLD Uni's Scramjet rocket experiment found; Dick Smith making news with his airspace proposal and the Cessna C172 chewing off the tail of a home-built at Jandakot.

Week Two - includes the latest from around Archerfield plus
a Space Signal returning after 22 hours at light speed and
a UK heavy in trouble out of Sydney.

For those you who may have missed this news flash in recent times, do not be concerned; there was not a great deal of worthwhile news from Archerfield so there was no need to go "flashing"!

Which leads me to the following :-
As from the next issue there will be a warning header similar to the following :-

WARNING

=====

This News Flash is intended for those persons who have a pilot licence or have held a pilot's licence, light aircraft owners or past owners of aircraft and others who have a genuine interest in the well-being and betterment of light aircraft and general aviation industry here in Australia.

If you DO NOT meet any of the above please delete this message NOW. Failure to do so may offend as some of the content strongly supports light aircraft and aviation in general and may inadvertently offend

those not qualified in aviation aspects.

=====

The News Desk needs to be protected so the above warning should meet the latest requirements for notices via email. If you can think of a better system or notice then pls advise.

Meanwhile, it's back to the matters of aviation and the recording of history for the benefit of those interested.

Please note:- The past history from and about Archerfield in these www pages extends back to 1996 and can be accessed by clicking on the "News Archives" tombstone on the main News page.

You will then need to select the year and from there the month or week as applicable.

Happy searching and flying..

Don Martinez at the News Desk
