Hello and Welcome to another Issue of the AirCentre News Flash from the Archerfield News Desk where aviation history is recorded for all those persons who fly-in, pilot or enjoy the ownership of light aircraft.

This News Flash is issued so that all can be informed

There is an avgas fuel crises about to descend on all aircraft owners and operators utilising light aircraft in OZ

Details are available on the AirCentre News, Week Four Flash.

It is the opinion of this News Desk that in the reality of it all, avgas, if not in short supply, will be very expensive to buy in Y2K!

Not a good way to finish the old millennium!
